Work Authorization: Mexico, No Visa Sponsorship Required | Available: Immediately

PROFESSIONAL SUMMARY

ICT Coordinator and STEM Instructor with over five years of experience managing technology infrastructure and delivering computer science education in international school environments across Mexico, Ethiopia, and Rwanda. Combines hands-on expertise in network administration, Google Workspace, LMS platforms, and technical support with a proven record of designing and teaching STEM curricula that produce measurable student outcomes including a project team that reached the XIX InfoMatrix Ibero-American National Finals 2025. Google Certified Educator Level 2. Proficient in Python, Java, JavaScript, TCP/IP, DNS, DHCP, VPN, GCP, and AWS. Completed a Master's in Strategic Management in Software Engineering (March 2026). Quadrilingual professional authorized to work in Mexico immediately.

SKILLS

ICT and Infrastructure: TCP/IP, DNS, DHCP, VPN, LAN/WAN, Google Workspace Admin, LMS Administration, GCP, AWS

Technical Support: Hardware and software troubleshooting, system monitoring, preventive maintenance, helpdesk

STEM Education: Curriculum design, lesson planning, project-based learning, coding clubs, student mentoring

Programming and Coding: Python, Java, JavaScript, HTML5, CSS3, SQL, taught at secondary and higher levels

Development Tools: Git, GitHub, Docker, JIRA, Linux, Windows, Django, React

Educational Platforms: Google Classroom, Google Workspace for Education, Moodle, Edmodo, MS Teams

Languages: English C2, Spanish B2, Turkish C1, Kinyarwanda (native)

Certifications: Google Certified Educator Level 2, Google Technical Support Fundamentals, Meta Front-End Developer

CORE COMPETENCIES

ICT Coordination: Manages school IT systems, devices, and platforms with 99% uptime for 100+ users.

STEM Curriculum Design: Designs and teaches STEM programs in coding, robotics, and computational thinking.

Digital Transformation: Leads Google Workspace and LMS rollouts, training staff and driving adoption.

Multilingual Instruction: Teaches in English and Spanish, with added fluency in Turkish and Kinyarwanda.

Student Achievement: Coached students to reach national-level science and technology competitions.

PROFESSIONAL EXPERIENCE

ICT Coordinator and STEM Instructor

Dec 2022 to Present

Colegio de Excelencia Raindrop | Tlalnepantla de Baz, State of Mexico, Mexico

- Coordinates and maintains the school-wide ICT infrastructure including network systems (TCP/IP, DNS, DHCP, VPN), device fleet, Google Workspace for Education, and LMS platforms for over 100 users and 40 faculty members.
- Reduced infrastructure downtime by over 30% and sustained 99% uptime through a comprehensive network upgrade, proactive monitoring, and structured preventive maintenance protocols.
- Designs, develops, and delivers the school Computer Science and STEM curriculum for secondary-level students, covering Python, Java, web development, data literacy, and computational thinking.
- Integrated Google Workspace and LMS platforms across all academic departments, fully digitalizing instructional and administrative workflows and training 40 faculty members in effective platform use.
- Built internal automation tools and reporting dashboards using Python and JavaScript, eliminating manual administrative processes across 12 departments and recovering significant staff time each week.
- Mentored and coached 10 students in Python, Java, and web development; advised a project team that advanced to the XIX InfoMatrix Ibero-American Science and Technology National Finals 2025, organized by SOLACYT and the University of Ixtlahuaca CUI.

Assistant Project Manager, Technical Systems

Sep 2021 to Sep 2022

Design Office of Africa Ltd. | Kigali, Rwanda

- Managed internal digital systems and IT infrastructure, maintaining 99% system uptime and ensuring operational continuity across all platforms.
- Provided direct technical support and troubleshooting for hardware, software, and network issues across internal teams, minimizing disruption to project delivery.
- Produced multilingual technical documentation in English, Turkish, and Kinyarwanda, and coordinated project delivery milestones across concurrent workstreams using JIRA.

ICT Infrastructure Director and Backend Developer

Jan 2021 to Aug 2021

Intellectual Schools AC | Addis Ababa, Ethiopia

- Directed all ICT operations across a multi-building school campus of over 1,000 students and 60 faculty members, managing networks, devices, software, and user support with an average incident resolution time of under two hours.
- Led the deployment of Google Workspace and LMS platforms across the institution, improving digital tool adoption by 60% within the first quarter and enabling hybrid e-learning at scale.
- Reduced system downtime by 30% through proactive monitoring, automated alerting, and preventive maintenance; rebuilt the web infrastructure to achieve a 50% improvement in site performance.

Software Development Instructor and Curriculum Designer

Jan 2020 to Dec 2020

St. Emmanuel School Complex | Kigali, Rwanda

- Designed and delivered a full-cycle STEM and software development curriculum in Python, Java, JavaScript, and web development, guiding students from foundational computational thinking through to working application deployment.
- Introduced Git and GitHub version control into student project workflows, reducing code integration errors by an estimated 35% and building habits of collaborative, professional-standard development.
- Developed structured lesson plans, rubrics, and project-based assessments aligned with international CS education standards.

Sales and Marketing Officer, Digital Systems

May 2020 to Dec 2020

Blueflame Ltd. | Kigali, Rwanda

- Generated a 25% increase in company revenue through a data-driven digital strategy combining CRM automation, audience segmentation, and campaign analytics.

EDUCATION

MSc. Strategic Management in Software Engineering

Jun 2024 to Mar 2026

European University of the Atlantic (UNEATLANTICO) | Spain

B.Ed. in Information Technology (Minor: Accounting), with Distinction

Sep 2016 to Mar 2021

Adventist University of Central Africa (AUCA) | Kigali, Rwanda

Diploma in Turkish Language

Sep 2015 to Aug 2016

Ipek University | Ankara, Turkey

CERTIFICATIONS

- Google Certified Educator Level 2, *Google for Education (2024)*
- Technical Support Fundamentals, *Google via Coursera (2023)*
- System Administration and IT Infrastructure Services, *Google via Coursera (2023)*
- Get Interactive: Practical Teaching with Technology, *University of London via Coursera (2023)*
- Introduction to Front-End Development, *Meta via Coursera (2023)*
- Version Control with Git and GitHub, *Meta via Coursera (2023)*
- Python 101 for Data Science, *IBM Cognitive Class (2020)*
- SQL and Relational Databases 101, *IBM Cognitive Class (2020)*

English: C2 Proficient **Spanish:** Intermediate (B2) **Turkish:** Professional (C1) **Kinyarwanda:** Native

RECOGNITION

Project Advisor, XIX InfoMatrix Ibero-American Student Science and Technology Projects, National Finals 2025. Organized by SOLACYT, Ibero-Ciencias, and the University of Ixtlahuaca CUI. Ixtlahuaca de Rayon, Estado de Mexico, May 2025.

MUSTAPHA UKIZURU

ICT Coordinator | STEM Instructor

mustaphaukizuru@gmail.com | +52 55 4056 2833 | www.linkedin.com/in/mustaphaukizuru | www.mustaphaukizuru.com

April 15, 2026

Dear Hiring Team,

Most schools have to choose between a strong ICT coordinator who keeps the technology running and a STEM teacher who can genuinely inspire students with it. I have been doing both at the same time, in an international school in Mexico, for the past three years and I would like to bring that combination to your institution.

At Colegio de Excelencia Raindrop in Tlalnepantla de Baz, I manage the full technology infrastructure for over 100 users' networks, devices, Google Workspace for Education, and LMS platforms while simultaneously designing and teaching the Computer Science curriculum for secondary-level students. On the infrastructure side, I reduced operational downtime by over 30% and have sustained 99% uptime across all campus systems. On the academic side, I coached a student project team that advanced to the XIX InfoMatrix Ibero-American Science and Technology National Finals 2025, organized by SOLACYT and the University of Ixtlahuaca CUI. That combination of operational reliability and student achievement is what I bring to an international school environment.

International schools require something that general-market candidates often cannot offer: a professional who is genuinely comfortable in multilingual, multicultural communities and who can communicate effectively with students, parents, and faculty from different backgrounds. I am fluent in four languages English at C2 level, Spanish, Turkish, and Kinyarwanda and I have lived and worked professionally in Rwanda, Turkey, Ethiopia, and Mexico. I hold a Google Certified Educator Level 2 credential and a Bachelor of Education degree with formal pedagogical training, alongside a Master's in Strategic Management in Software Engineering completed in March 2026. I do not just manage technology in schools; I understand how to teach with it and how to build the systems that make teaching with it possible.

I would welcome the opportunity to speak with you about how my experience can support your school's ICT strategy and STEM program. My portfolio is available at mustaphaukizuru.com. I am authorized to work in Mexico immediately, without visa sponsorship, and available to start without delay. I look forward to the possibility of contributing to your school community.

Yours sincerely,

Mustapha Ukizuru

ICT Coordinator | STEM Instructor
