Mustapha Ukizuru — Service Catalog

Brand: Technology Consulting · Digital Products · STEM and School Solutions **Owner:** Mustapha Ukizuru **Domain:** mustaphaukizuru.com
Version: 1.0 **Effective Date:** 29 April 2026 **Review Cycle:** Quarterly
Status: Production-ready

PART I — GOVERNANCE

1. Catalog Scope and Purpose

This catalog defines the complete set of professional services offered under the Mustapha Ukizuru brand. It is the single source of truth for what is sold, how it is sold, who it is sold to, and how it is delivered. The catalog supports four operational uses: customer-facing marketing on mustaphaukizuru.com, sales conversations and proposals, internal delivery planning and pricing, and quarterly portfolio governance.

2. Catalog Architecture

The catalog is organized in four layers, top-down:

- **Source** — the brand and capability stack: Mustapha Ukizuru.

- **Categories** — six top-level service families.
- **Services** — atomic SKUs within each category, each independently sellable.
- **Deliverables** — the specific outputs produced within each service.

Solutions (multi-service bundled engagements with a single all-in price) are composed from atomic services and documented separately in Part IV.

3. Naming Conventions

Service identifier schema: UKZ - {CC} - {NNN}

- **UKZ** — brand prefix (Mustapha Ukizuru)
- **CC** — two-letter category code
- **NNN** — three-digit sequential service number within category

Category codes:

Code	Category
CS	IT Consulting and Strategy
BD	Brand and Digital Presence
IC	IT Infrastructure and Cloud
WD	Web, Application and AI Development
ET	EdTech Implementation and Training
MS	Managed Services and Support

Service name pattern: {Noun phrase} + {format suffix} (for example, *Technology Assessment and Audit*, *Custom Web Application Build*, *Fractional CTO Retainer*). Format suffixes telegraph the consumption mode in two seconds.

Approved format suffixes: Audit, Assessment, Sprint, Build, Workshop, Cohort, Program, Retainer, Service, Implementation, Setup, Rollout, Migration, Engagement, Pack, Toolkit.

4. Metadata Schema

Every service record contains the following fields:

Field	Description
ID	UKZ-{CC}-{NNN} unique identifier
Name	Service name following naming convention
Outcome	One-sentence value statement
Audience	Target segment(s): EDU, SMB, IND, or combinations
Format	Service, Product, or Hybrid
Engagement	Audit, Sprint, Build, Workshop, Cohort, Retainer, etc.
Duration	Typical delivery timeframe
Pricing model	Fixed scope, T&M, monthly retainer, per-seat, per-unit
Tier	1 (Flagship), 2 (Standard), or 3 (Specialized)
Status	Active, Beta, Roadmap, Retired
Deliverables	Specific outputs produced
Related	Cross-references to other services

5. Audience Codes

Code	Segment	Priority
EDU	Schools and educational institutions	Primary
IND	Individuals and professionals	Secondary
SMB	SMEs and businesses	Tertiary (inbound)
ALL	All three segments	—

6. Service Tiers

Tier	Definition	Marketing Treatment
1	Flagship — highest revenue per engagement, strongest differentiation	Featured on homepage; lead in sales conversations
2	Standard — actively sold, known buyer demand	Listed on services page; sold on inbound and qualified outbound
3	Specialized — available on request, niche or low-volume	Listed in capabilities reference; sold on direct request only

7. Engagement Types

Engagement	Form	Default Pricing
Audit	One-shot diagnostic assessment	Fixed scope
Assessment	Structured evaluation with recommendations	Fixed scope
Sprint	Time-boxed delivery (1-8 weeks)	Fixed scope
Build	Scoped engineering project	Fixed scope or T&M
Implementation	Deployment of a defined system	Fixed scope
Setup	Configuration of an existing platform	Fixed scope
Rollout	Multi-phase deployment	Fixed scope
Migration	Workload transfer between systems	Fixed scope
Workshop		Day rate

Engagement	Form	Default Pricing
	Facilitated session(s) with deliverable	
Cohort	Multi-participant program	Per-seat
Program	Multi-month structured engagement	Bundled all-in
Engagement	Defined scope with clear endpoint	Fixed or milestone-based
Retainer	Recurring monthly engagement	Monthly fixed
Pack	Bundled deliverables	Per-unit
Toolkit	Self-serve digital product	Per-unit

8. Service Lifecycle and Status

Status	Definition
Active	Currently sold and delivered
Beta	Limited availability, gathering market validation
Roadmap	Planned for future release; not currently sold
Retired	No longer offered; preserved for historical reference

All services are reviewed quarterly. Services in *Roadmap* status for more than two consecutive quarters without forward motion are retired or deferred.

UKZ-IC-009 · GCP Cloud Migration Tier 1 · Migration · Fixed scope · 6–12 weeks · SMB Outcome: Workload migration to Google Cloud Platform with cost optimization, security baseline, and runbook handover.

Includes: Project setup and IAM configuration · Network and VPC design · Compute Engine, Cloud Run, GKE workload migration · Cloud SQL database migration · Cloud Storage setup · Cost optimization · Security baseline · Runbook documentation · Post-migration support. **Related:** IC-013, MS-002.

UKZ-IC-010 · AWS Cloud Migration Tier 2 · Migration · Fixed scope · 6–12 weeks · SMB Outcome: Workload migration to AWS with cost optimization, security baseline, and runbook handover. **Includes:** Account setup and IAM · VPC design · EC2, ECS, Lambda workload migration · RDS database migration · S3 setup · Cost optimization · Security baseline · Runbook documentation · Post-migration support.

UKZ-IC-011 · Containerization and CI/CD Implementation Tier 2 · Implementation · Fixed scope · 3–5 weeks · SMB Outcome: Production-grade containerization and continuous integration/deployment pipeline that accelerates safe delivery. **Includes:** Docker containerization · Multi-stage build optimization · Container registry setup · CI/CD pipeline (GitHub Actions, Cloud Build, AWS CodePipeline) · Test automation integration · Deployment automation · Rollback procedures · Documentation. **Related:** IC-016.

UKZ-IC-012 · Workflow Automation Implementation Tier 2 · Implementation · Fixed scope · 2–6 weeks · EDU, SMB Outcome: Custom workflow automation that eliminates manual processes and recovers staff hours each week. **Includes:** Process discovery · Automation opportunity assessment · Tool selection (Python, n8n, Zapier, Make) · Pipeline design and build · Scheduled jobs and webhooks · Error handling and alerting · Documentation and handover.

UKZ-IC-013 · Cloud Cost Optimization Service *Tier 3 · Audit + Implementation · Fixed scope · 2–4 weeks · SMB* **Outcome:** Measurable reduction in cloud spend through right-sizing, reserved capacity, and architectural recommendations. **Includes:** Cost analysis · Resource utilization audit · Right-sizing recommendations · Reserved instance and savings plan analysis · Architectural optimization opportunities · Implementation of agreed changes · Before/after cost report.

UKZ-IC-014 · OWASP Security Audit and Hardening *Tier 2 · Audit + Implementation · Fixed scope · 3–4 weeks · SMB* **Outcome:** OWASP-aligned security audit with prioritized remediation and hardening of identified vulnerabilities. **Includes:** Application security audit · Infrastructure security review · Dependency vulnerability scan · Configuration hardening · Secrets management review · Remediation of high-priority issues · Security documentation. **Related:** CS-006.

UKZ-IC-015 · Backup and Disaster Recovery Implementation *Tier 2 · Implementation · Fixed scope · 2–4 weeks · EDU, SMB* **Outcome:** Automated backup, tested recovery procedures, and a documented business continuity plan. **Includes:** Recovery objective definition (RTO, RPO) · Backup strategy design · Backup automation setup · Off-site replication · Recovery testing · Continuity plan documentation · Tabletop exercise.

UKZ-IC-016 · Observability and Monitoring Setup *Tier 3 · Setup · Fixed scope · 2–3 weeks · SMB* **Outcome:** Production-grade logging, metrics, and alerting that surface problems before users notice them. **Includes:** Logging architecture · Metrics collection · Distributed tracing setup · Dashboard design · Alert rule configuration · On-call rotation setup · Runbook templates.

16. Category WD — Web, Application and AI Development

The full engineering tier. Building software systems end-to-end on Django, React, PostgreSQL, Docker, and GCP, extended with modern AI tooling.

UKZ-WD-001 · Custom Web Application Build *Tier 1 · Build · Fixed scope · 6–16 weeks · SMB* **Outcome:** Production-ready custom web application built on Django and React, fully tested and deployed.

Includes: Discovery and requirements · Architecture design · Database schema · Backend development (Django) · Frontend development (React) · Authentication · Real-time features · Mobile-responsive UI · WCAG 2.1 AA accessibility · Testing · Deployment · Documentation. **Related:** WD-006, WD-007, MS-003.

UKZ-WD-002 · SaaS MVP Build *Tier 1 · Sprint · Fixed scope · 4–8 weeks · SMB* **Outcome:** Working SaaS MVP delivered in four to eight weeks at fixed scope and fixed price, ready for first paying customers.

Includes: Scope and feature definition · Multi-tenant architecture · Authentication and authorization · Subscription billing (Stripe) · Admin dashboard · Customer-facing application · Onboarding flow · Email notifications · Deployment to GCP · Launch support. **Related:** WD-007, WD-009.

UKZ-WD-003 · E-commerce Platform Build *Tier 2 · Build · Fixed scope · 6–12 weeks · SMB* **Outcome:** Custom e-commerce platform or Shopify customization tailored to a specific business workflow. **Includes:** Catalog architecture · Cart and checkout · Payment integration (Stripe, Mercado Pago, Conekta) · Inventory management · Order fulfillment workflow · Customer account · Admin dashboard · SEO foundations · Deployment.

UKZ-WD-004 · Custom CMS Build *Tier 2 · Build · Fixed scope · 4–8 weeks · EDU, SMB* **Outcome:** Custom content management system on Wagtail, WordPress, or Django that fits the specific publishing workflow. **Includes:** Content model design · Editor experience · Workflow and approval · Media management · Multi-author support · API for headless use · Migration from existing CMS · Editor training.

UKZ-WD-005 · Internal Tool and Admin Dashboard Build *Tier 2 · Build · Fixed scope · 3–8 weeks · EDU, SMB* **Outcome:** Custom internal tools and reporting dashboards that eliminate manual workflows across departments. **Includes:** Workflow discovery · Database design · Admin UI

· Reporting and exports · User management · Integration with existing systems · Documentation · User training. **Related:** IC-012, WD-015.

UKZ-WD-006 · REST and GraphQL API Development Tier 2 · Build · Fixed scope · 3–8 weeks · SMB Outcome: Production-grade REST or GraphQL API with authentication, documentation, and third-party integration ready. **Includes:** API design · Schema definition · Endpoint implementation · Authentication and authorization · Rate limiting · Versioning strategy · OpenAPI or GraphQL schema documentation · Postman collection · Integration test suite.

UKZ-WD-007 · Authentication and Payment Integration Tier 2 · Build · Fixed scope · 2–4 weeks · SMB Outcome: Production-ready authentication and payment systems integrated into a new or existing application. **Includes:** OAuth, JWT, or SSO authentication · Multi-factor authentication · Role-based access control · Stripe, PayPal, Mercado Pago, or Conekta integration · Subscription billing · Webhook handling · Admin and user-facing UI · Testing.

UKZ-WD-008 · Third-Party Service Integration Tier 3 · Build · Fixed scope · 1–3 weeks per integration · SMB Outcome: Reliable integration with third-party services (Twilio, SendGrid, Google APIs, CRMs) with error handling and monitoring. **Includes:** Integration design · API client implementation · Webhook handling · Error handling and retry logic · Monitoring and alerting · Documentation.

UKZ-WD-009 · Claude and LLM API Integration Tier 1 · Build · Fixed scope · 2–6 weeks · EDU, SMB Outcome: Production-grade integration of Anthropic Claude, OpenAI, or Google Gemini APIs into existing applications or workflows. **Includes:** Use-case scoping · API integration · Prompt engineering and tuning · Response handling and validation · Cost monitoring · Rate limiting and fallback · Logging · Documentation · Integration test suite. **Related:** WD-010, WD-011, CS-007.

UKZ-WD-010 · AI Chatbot and Virtual Assistant Build Tier 2 · Build · Fixed scope · 4–8 weeks · SMB Outcome: Production AI chatbot or virtual assistant integrated into a website or customer service workflow, with handoff to human agents. **Includes:** Use-case definition · Conversation

design · LLM integration · Context and memory management · Human handoff workflow · Admin UI · Analytics · Deployment.

UKZ-WD-011 · Knowledge Base AI and RAG System Tier 1 · Build · Fixed scope · 4–10 weeks · EDU, SMB Outcome: Custom retrieval-augmented generation system on a private knowledge base, with semantic search and grounded answers. **Includes:** Content ingestion pipeline · Embedding generation · Vector database setup (Pinecone, Weaviate, pgvector) · Retrieval pipeline · Custom GPT or Claude Project setup · Citation and source tracking · Admin UI for content management · Evaluation framework. **Related:** WD-009, WD-012.

UKZ-WD-012 · AI Document Processing Pipeline Tier 2 · Build · Fixed scope · 3–6 weeks · EDU, SMB Outcome: Automated document processing pipeline using LLMs for extraction, summarization, and classification at scale. **Includes:** Document intake design · OCR for scanned documents · LLM-based extraction · Validation and human-review queue · Output to target systems · Cost monitoring · Quality dashboard.

UKZ-WD-013 · AI Agent and Workflow Build Tier 3 · Build · Fixed scope · 4–10 weeks · SMB Outcome: Multi-step AI agent or workflow that performs complex tasks autonomously with appropriate guardrails. **Includes:** Use-case definition · Agent architecture (LangChain, LlamaIndex, custom) · Tool integration · Memory and state management · Safety guardrails · Monitoring · Human-in-the-loop checkpoints · Documentation.

UKZ-WD-014 · AI Content Auditing System Tier 3 · Build · Fixed scope · 3–6 weeks · EDU Outcome: AI-content detection and academic integrity system for schools concerned about plagiarism and unattributed AI use. **Includes:** Detection model integration · Submission workflow · Teacher review interface · Reporting dashboard · Policy framework · Integration with LMS. **Related:** ET-008, ET-011.

UKZ-WD-015 · Business Intelligence Dashboard Build Tier 2 · Build · Fixed scope · 3–6 weeks · EDU, SMB Outcome: Custom business intelligence dashboard on Looker Studio, Power BI, or Metabase with KPI tracking and automated reporting. **Includes:** KPI definition workshop ·

Data source integration · Dashboard design · Automated refresh · Scheduled reports · Alert thresholds · User access control · Training.

UKZ-WD-016 · Data Pipeline and Warehouse Setup *Tier 3 · Build · Fixed scope · 4–8 weeks · SMB* **Outcome:** Production data pipeline and warehouse on BigQuery, Redshift, or Snowflake, with ETL, modeling, and analytics-ready schemas. **Includes:** Data source inventory · ETL pipeline design and build · Data warehouse setup · Dimensional modeling · Data quality monitoring · BI integration · Documentation.

UKZ-WD-017 · Performance Optimization Engagement *Tier 2 · Audit + Implementation · Fixed scope · 2–4 weeks · SMB* **Outcome:** Measurable application performance improvement with documented before/after benchmarks. **Includes:** Performance audit · Bottleneck identification · Database query optimization · Caching strategy · Frontend performance optimization · Load testing · Before/after benchmark report.

UKZ-WD-018 · Legacy System Modernization *Tier 2 · Engagement · Fixed scope or T&M · 8–24 weeks · SMB* **Outcome:** Phased migration of aging PHP, ASP, or WordPress systems onto a modern Django and React stack with feature parity and improved performance. **Includes:** Current-state assessment · Modernization strategy (strangler fig, big-bang, or hybrid) · Data migration · Incremental rebuild · Parallel-run validation · Cutover plan · Post-launch support.

17. Category ET — EdTech Implementation and Training

Helping institutions and educators actually use the technology they have invested in. Anchored in Google Certified Educator L2 and four years inside an international school in Mexico.

UKZ-ET-001 · LMS Selection and Strategy Consultation *Tier 2 · Consultation · Fixed scope · 2–3 weeks · EDU* **Outcome:** Independent LMS selection (Google Classroom, Moodle, Canvas, Edmodo, Schoology) with implementation roadmap. **Includes:** Requirements workshop · Vendor evaluation · Comparison matrix · Demo coordination · Reference

checks · Final recommendation · Implementation roadmap. **Related:** ET-002, CS-004.

UKZ-ET-002 · LMS Deployment and Migration Tier 1 · Migration · Fixed scope · 6–12 weeks · EDU Outcome: Production LMS deployment with content migrated from existing platforms and faculty trained for term start. **Includes:** Tenant setup · User provisioning · Course structure setup · Content migration · Integration with SIS and Workspace · Faculty training · Student onboarding materials · Go-live support · Post-launch support. **Related:** ET-003, ET-006, MS-006.

UKZ-ET-003 · Google Workspace for Education Rollout Tier 1 · Rollout · Fixed scope · 4–6 weeks · EDU Outcome: Fully configured Google Workspace for Education domain with users provisioned, classrooms ready, and faculty trained. **Includes:** Domain setup · User provisioning · Organizational unit structure · Sharing and security policies · Classroom setup · Drive structure for staff and students · Email migration · Faculty training · Student onboarding. **Related:** IC-004, ET-006.

UKZ-ET-004 · Student Information System Integration Tier 2 · Integration · Fixed scope · 4–8 weeks · EDU Outcome: SIS integrated with LMS, parent portal, and reporting systems for unified student data flow. **Includes:** SIS evaluation · Data mapping · Integration design and build · Sync automation · Validation testing · Documentation · Admin training.

UKZ-ET-005 · Parent Portal Setup and Training Tier 2 · Setup · Fixed scope · 3–6 weeks · EDU Outcome: Production parent portal with grades, attendance, communications, and parent-facing training delivered. **Includes:** Platform selection or custom build · Configuration · SIS integration · Bilingual EN-ES interface · Parent training sessions · Faculty training · Support documentation.

UKZ-ET-006 · Faculty Professional Development Cohort Tier 1 · Cohort · Per-seat · 6–12 weeks · EDU Outcome: Structured faculty cohort program that transforms how teachers use EdTech tools in daily instruction. **Includes:** Pre-assessment of digital fluency · Eight live sessions · Self-paced practice activities · Coaching office hours · Project-

based application in real classrooms · Final showcase · Post-program assessment. **Related:** ET-007, ET-008.

UKZ-ET-007 · Google Certified Educator Preparation Cohort Tier 2 · Cohort · Per-seat · 8–10 weeks · EDU Outcome: Faculty cohort fully prepared for and supported through Google Certified Educator Level 1 or Level 2 certification. **Includes:** Curriculum aligned to certification objectives · Live training sessions · Practice scenarios · Mock exam · Exam coaching · Certification reimbursement coordination.

UKZ-ET-008 · AI for Educators Training Program Tier 1 · Program · Per-seat or institutional · 6–8 weeks · EDU Outcome: Faculty trained to use AI tools (Claude, ChatGPT, Gemini) responsibly and effectively in lesson planning, content creation, and assessment. **Includes:** AI fundamentals for educators · Tool-specific training · Prompt engineering for teaching · Lesson planning with AI · Assessment design · Academic integrity framework · Acceptable use policy · Practical application projects. **Related:** CS-007, WD-014, ET-011.

UKZ-ET-009 · Bilingual Digital Content Production Tier 2 · Service · Per project · Variable · EDU Outcome: High-quality bilingual EN-ES digital learning content (slides, videos, interactives) ready for classroom use. **Includes:** Curriculum alignment review · Content design · Bilingual production · Interactive elements (Quizizz, Edpuzzle, Nearpod) · Video recording and editing · LMS publishing · Style guide for ongoing in-house production.

UKZ-ET-010 · Smart Classroom and STEM Lab Setup Tier 2 · Setup · Fixed scope · 4–8 weeks · EDU Outcome: Production-ready technology-integrated classroom or STEM/robotics lab with devices, network, software, and instructional design. **Includes:** Space planning · Equipment specification (interactive boards, projectors, devices, robotics kits) · Network and power design · Installation coordination · Software setup · Initial curriculum content · Faculty orientation.

UKZ-ET-011 · Digital Citizenship and AUP Implementation Tier 2 · Implementation · Fixed scope · 2–4 weeks · EDU Outcome: School-wide acceptable use policy and digital citizenship framework implemented with student, parent, and faculty rollout. **Includes:** AUP drafting · BYOD

policy · Digital citizenship curriculum · AI acceptable use policy · Parent communication pack · Faculty training · Student onboarding · Annual review template.

UKZ-ET-012 · Student Data Privacy Compliance Service *Tier 3 · Service · Fixed scope · 4–6 weeks · EDU* **Outcome:** Student data privacy compliance posture aligned with applicable regulations (LFPDPPP for Mexico, FERPA for US-aligned schools, GDPR where relevant). **Includes:** Data inventory · Vendor compliance audit · Data flow mapping · Policy and procedure documentation · Faculty and staff training · Parent disclosure templates · Annual review framework.

18. Category MS — Managed Services and Support

The recurring-revenue layer. A different commercial model rather than a different skill set. The natural follow-on to every project.

UKZ-MS-001 · Managed IT Operations Retainer *Tier 1 · Retainer · Monthly fixed · Ongoing · EDU, SMB* **Outcome:** Fully managed IT operations with defined SLAs across networks, devices, identity, and platforms. **Includes:** SLA-backed incident response · Proactive monitoring · Patching and updates · User onboarding/offboarding · Vendor coordination · Monthly performance report · Quarterly business review. **Related:** IC-001, MS-007.

UKZ-MS-002 · Managed Cloud Operations Retainer *Tier 2 · Retainer · Monthly fixed · Ongoing · SMB* **Outcome:** Ongoing management of cloud infrastructure on GCP or AWS with cost optimization, security monitoring, and incident response. **Includes:** 24/7 monitoring · Incident response · Cost optimization · Security posture management · Patching and updates · Backup verification · Monthly cost and performance report. **Related:** IC-009, IC-010, IC-013.

UKZ-MS-003 · Managed Application Maintenance Retainer *Tier 2 · Retainer · Monthly fixed · Ongoing · SMB* **Outcome:** Ongoing maintenance, bug fixes, dependency updates, and minor enhancements

for production applications. **Includes:** Monthly maintenance window · Dependency updates · Security patching · Bug fixes (within retainer hours) · Minor feature enhancements · Performance monitoring · Monthly report.

UKZ-MS-004 · Managed Website Hosting and Maintenance Tier 2 · Retainer · Monthly fixed · Ongoing · ALL **Outcome:** Hosted, maintained, and monitored website with backups, updates, and uptime guarantees. **Includes:** Hosting · Daily backups · Security monitoring · Updates (CMS, plugins, dependencies) · Performance monitoring · SSL renewal · Minor content updates · Monthly report.

UKZ-MS-005 · Managed Workspace Administration Tier 2 · Retainer · Monthly fixed · Ongoing · EDU, SMB **Outcome:** Ongoing administration of Google Workspace or Microsoft 365 tenant including user lifecycle, policy enforcement, and support. **Includes:** User provisioning and deprovisioning · License management · Policy enforcement · Security monitoring · End-user support · Quarterly admin review.

UKZ-MS-006 · Managed LMS Administration for Schools Tier 1 · Retainer · Monthly fixed · Ongoing · EDU **Outcome:** Ongoing LMS administration for schools without a dedicated EdTech administrator. **Includes:** User provisioning each term · Course setup · Integration management · Faculty support · Student support · Issue resolution · Term-end reporting · Annual rollover.

UKZ-MS-007 · Helpdesk-as-a-Service Retainer Tier 2 · Retainer · Monthly fixed · Ongoing · EDU, SMB **Outcome:** Outsourced helpdesk function with tiered response times and bilingual EN-ES support. **Includes:** Tier 1 to Tier 3 support · SLA-backed response · Ticket management · Knowledge base maintenance · Escalation procedures · Bilingual support · Monthly performance report.

UKZ-MS-008 · Managed Cybersecurity Monitoring Tier 3 · Retainer · Monthly fixed · Ongoing · SMB **Outcome:** Continuous security monitoring, alerting, and incident response for production environments. **Includes:** SIEM integration · Threat monitoring · Alert triage · Incident response · Monthly threat report · Quarterly security review.

UKZ-MS-009 • Managed Compliance Monitoring *Tier 3 • Retainer • Monthly fixed • Ongoing • EDU, SMB* **Outcome:** Ongoing compliance posture monitoring for LFPDPPP, GDPR, or FERPA with quarterly attestation. **Includes:** Control monitoring • Vendor compliance tracking • Policy review • Quarterly attestation report • Annual compliance review • Remediation coordination.

UKZ-MS-010 • Quarterly Health Check Service *Tier 2 • Audit • Per quarter • Ongoing • EDU, SMB* **Outcome:** Quarterly review of infrastructure, security, and operational posture with prioritized recommendations. **Includes:** Infrastructure review • Security posture review • Performance review • Cost review • Recommendations report • Executive presentation.

PART IV — SOLUTION COMPOSITION

Solutions are bundled offerings composed from atomic services. Each Solution targets one primary segment, has a single all-in price, a defined timeline, and a clear outcome promise.

19. Flagship Solutions

School Tech Transformation Program (*EDU primary*)

End-to-end school technology modernization in 90 days plus six-month leadership engagement. **Composed of:** UKZ-CS-001, UKZ-IC-001, UKZ-IC-004, UKZ-ET-002, UKZ-ET-003, UKZ-ET-006, UKZ-CS-011 (months 4–9).

Bilingual STEM Program Launch (*EDU primary*)

Full CS and STEM curriculum design plus faculty enablement, delivered in parallel English and Spanish. **Composed of:** UKZ-ET-006, UKZ-ET-008, UKZ-ET-009, UKZ-ET-010.

School AI Adoption Program (*EDU primary*)

Responsible adoption of AI tools across faculty, students, and curriculum within one term. **Composed of:** UKZ-CS-007, UKZ-ET-008, UKZ-ET-011, UKZ-WD-014 (optional).

Fractional CTO Engagement (*SMB primary*)

Monthly technical leadership for SMEs and startups that need a CTO without the full-time cost. **Composed of:** UKZ-CS-010 (anchor), UKZ-CS-002 (annual), UKZ-CS-008 (as needed).

MVP-to-Launch Package (*SMB primary*)

Working SaaS MVP delivered in eight weeks at fixed scope and fixed price, ready for first paying customers. **Composed of:** UKZ-WD-002, UKZ-WD-007, UKZ-IC-009, UKZ-MS-003 (post-launch).

Business IT Foundation (*SMB primary*)

Network, cloud, Workspace, and security baseline configured for new or growing offices. **Composed of:** UKZ-IC-001, UKZ-IC-004, UKZ-IC-006, UKZ-IC-014, UKZ-IC-015.

AI-Powered Knowledge Base (*SMB and EDU*)

Custom RAG system on private knowledge base, with semantic search and grounded answers. **Composed of:** UKZ-CS-007, UKZ-WD-009, UKZ-WD-011, UKZ-MS-003 (ongoing).

Personal Brand and Web Foundation (*IND primary*)

Complete personal brand identity plus production-ready portfolio website on a custom domain. **Composed of:** UKZ-BD-001, UKZ-BD-007, UKZ-BD-011, UKZ-BD-013.

PART V — APPENDICES

Appendix A — Glossary

Catalog Item. An atomic service SKU as defined in this catalog.
Solution. A composite offering composed of multiple Catalog Items, sold as one transaction. **Engagement.** Any sold transaction, atomic or bundled. **Tier.** Service prominence level (1 Flagship, 2 Standard, 3 Specialized). **Retainer.** Recurring monthly engagement with defined scope and SLAs. **Sprint.** Time-boxed delivery with fixed scope, typically 1–8 weeks. **SLA.** Service-Level Agreement defining response times and availability. **LFPDPPP.** Mexican federal law on data protection (Ley Federal de Protección de Datos Personales en Posesión de los Particulares).
